

LUXIO[®]

by AKZÉNTZ

COLOUR GUIDE **2024**

The best colour in the whole world is the one that looks good on you.

— **Coco Chanel**

COLOUR ACCURACY

We suggest using this guide as a way to navigate your Luxio® Colour collection, and refer to the painted colour chips whenever possible.

Although every effort is made to present colours as precisely as possible, colours may vary in person.

*It is important to note that shades may not perfectly match their appearance in person due to various factors—such as display settings, the human eye's perception of pigments, and printing limitations.

COVERAGE GUIDE

We recommend applying all colours with 2 even coats for best results.

Luxio® offers different coverages to suit individual preferences. Reference the coverage listed next to the shade name, to provide you with an indication of how dense the coverage of each colour is.

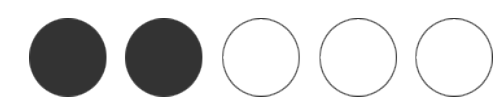

Colour appears solid with 1 coat.

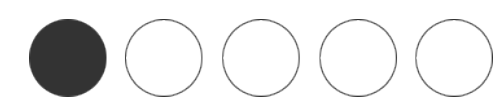

Colour has complete coverage with 2 coats.

Colour will have milky coverage with 2 coats.

Colour will be sheer, the natural nail to be lightly visible after 2 coats.

Colour will be very sheer (tint) with 2 coats.

*Neon or bright pigments emit energy at a wavelength beyond the visible spectrum of light, producing their distinctive glow—an effect that cannot be fully captured on a display.
